

Iridium 9555

The **Iridium 9555** is the evolution of trusted, reliable mobile communications.

From distant rigs to pitching decks, baking deserts to frozen ice packs, the Iridium 9555 satellite phone can handle any environment. It is small but determined, sleek but industrial grade, easy to use but powerful. It is every bit as rugged as Iridium's previous handsets—still resistant to water, dust and shock—but streamlined and packed with innovative new features.

Compact Power

The Iridium 9555 is not only the smallest phone Iridium has ever made, it's also the most powerful. With a significantly reduced footprint from the previous model, more hand-friendly form factor, and aerodynamic features such as an internally stowed antenna, this sleek handset is designed to easily go wherever you do.

Enhanced Features

In addition to all the features you have come to expect from Iridium's trusted satellite phones, the Iridium 9555 also incorporates innovations such as an integrated speakerphone, improved SMS and email messaging capabilities, and an upgraded Mini-SDB data port. It continues the evolution of satellite phones, making communication more efficient and effective for end users.
